- Other
INTRODUCTION

Today’s Webinar:

PURPOSE: To provide information on ABC Green Building Toolbox Training

OUTCOME: To drive “Green” education to the craft worker and provide a vehicle for broad organizational learning

WHAT is available to ABC Members

The comprehensive program includes everything needed to get started:

• Set of 52, 15-minute, printable, online PDFs for use as Toolbox Talks on construction sites

• “Train the Trainer” online education modules to equip supervisors and foremen with the skills to present Toolbox Talks on the jobsite
WHAT is available to ABC Members

Each of the 52 talks address green construction methods associated with LEED® Certification:

- Sustainable Sites
- Water Efficiency
- Energy and Atmosphere
- Materials and Resources
- Indoor Environmental Quality
- Innovation and Design Process
- Regional Priority Credit

WHAT is available to ABC Members

“Train the Trainer” online education modules include:

- Welcome Tutorial
- Introduction to Library of Toolbox Topics
- Preparing for a Toolbox Talk
- Learning Styles
- Components of a Toolbox Talk
- Connecting to the Topic
- Selecting a Toolbox Environment
- Delivering a Toolbox Topic
- Toolbox Talk Tips
- Review and Check
- Toolbox Talk Checklist
WHO should use the GREEN TOOLBOX TALKS

Any ABC Member Company

To educate craft workers and front line supervision about Green Construction Principles

WHERE is this information available to ABC Members

ONLINE Purchase at:
BENEFITS of GREEN TOOLBOX TALKS

• Gain a better understanding of green construction practices associated with LEED® certification

• Improve productivity and profitability

• Understand the impact contractors have on a green building project

• Understand owners’ green building goals and how contractors can support the owner

BENEFITS of GREEN TOOLBOX TALKS

• Enhance leadership skills of supervisors and foremen

• Increase morale among employees

• Continuing education hours for LEED® APs and Green Associates seeking credential maintenance

• Satisfy the education and training requirements for ABC Green Contractor Certification
HOW is this information available to ABC Members

Pricing Based on Company Size:

- $52.00 for companies under $1 million in revenue
- $104.00 for companies $1-20 million in revenue
- $156.00 for companies over $20 million in revenue

Includes unlimited subscription to all 52 toolbox talks and the online “train the trainer” modules
Welcome to ABC’s Green Building Toolbox Talks.

The ABC Green Building Toolbox Talks provide supervisors/foremen and craft professionals with the tools needed to learn and implement green construction practices on the jobsite.

This website gives you access to a library of 52 toolbox talks as well as “Train the Trainer” electronic modules to prepare those presenting the toolbox talks on jobsites.

Attention LEED APs and Green Associates: ABC’s Green Building Toolbox Talks can be submitted to the GBCI for continuing education hours. The Toolbox Talks qualify as live presentations. For more information click here.
