

Free Enterprise  
Alliance

## Keeping America Open for Business

The Free Enterprise Alliance (FEA) is battling to keep you building! As the issue advocacy arm of Associated Builders and Contractors, FEA tackles state business initiatives, educates the public about construction and advocates the importance of open competition and free enterprise. Without FEA, opponents of free enterprise would be unopposed in their continued attacks — making it harder and harder for you to compete.

Since its formation in 2001, FEA has financed and supported a number of initiatives, including:

- Distributing more than one million voter guides comparing the 2004 presidential candidates' positions on issues important to the merit shop agenda.
- Developing the ABC Votes! website ([www.abc.org/vote](http://www.abc.org/vote)) with information on voter registration and voting regulations.
- Preparing and distributing quarterly posters to all ABC members on ABC stances on the Employee Free Choice Act, taxes and other issues.
- Helping to secure the right to a private ballot through the Coalition for a Democratic Workplace ([www.myprivateballot.com](http://www.myprivateballot.com)).

Find out how you can get involved! Visit [www.abc.org/FEA](http://www.abc.org/FEA) for more information.
