

Finally, an easy to use
scheduling
and planning tool

Key Features

-  A modern, intuitive user-interface designed to serve one specific purpose. Make creating and managing construction schedules easier.
-  Instantly create lookaheads connected to your master schedule. Updates on the lookahead are linked back to the master schedule
-  Unlimited users allows for project managers, superintendents and trusted trade partners to access the schedule, if given permission.

Build schedules 2x faster

Outbuild customers report spending half the time it used to take to create a new construction schedule.

Update lookaheads in the field

Manage and update your lookaheads directly in the field with the iPad app. With unlimited users, subcontractors can be granted access to the latest schedule information.

Avoid costly delays

With your master schedule connected to your lookahead, progress updates can instantly be shared to the schedule, keeping everyone on the same page when things change.

WHAT OUR CUSTOMERS SAY

"The integration of master schedule to lookahead is a game changer. Getting all of our team members involved in the planning/scheduling process has also been huge."
