

GET YOUR PROJECT BACK ON TRACK

Southwire SPEED™ Services

Affected by recent events? Need a rush order to complete your project?

Southwire SPEED™ Services was created for situations like this. Southwire SPEED™ Services has been meeting critical deadlines since 2016. Our concierge customer specialist will work with you and your distributor to meet your needs for an expedited product that comes from one provider.

Why Southwire SPEED™ Services?

Expedited Product: Shortened lead times to meet tight deadlines for projects that have been delayed due to unforeseen circumstances.

Decreased Minimum Order Quantity: Optional short lengths to fit non-standard constructions.

Multiple Cable Types Available: VFD, Factory Automation Cables, Cable-in-Conduit, Bare Aluminum, Bare Copper Tray Cable, AIA, Armor-X®, Medium Voltage Cable, Metal Clad, and more.

If you have a unique construction situation or need help meeting a deadline, ask your distributor about Southwire and Southwire SPEED™ Services. With more than 70 years of experience in the wire and cable industry, Southwire can support you and your projects with maximum expertise as one of North America's largest wire and cable solution providers.

When To Use Southwire SPEED™ Services?

Expedited Lead Times: The owner of the project changes plans or schedules.

Unique Specifications: The specifications engineers will not accept alternate or "standard" constructions.

Urgent Requirement: Cable failure results in a critical need situation.

FOR TIMES LIKE THIS, SOUTHWIRE IS HERE TO HELP!
