Welcome Letter

ABC Members and Trusted Colleagues,

These are unprecedented times for our businesses, our families and our country. We have faced countless adversities over the past two years, but as we always do, we came together and met every new challenge with courage, solutions and pride.

The work of the Associated Builders and Contractors is of the utmost importance. As we continue to be the leading organization representing America's business community and the construction industry.

ABC is powered by our members and 69 chapters who donate their time, talent and resources to better the merit shop construction industry. We are on a mission to educate our members and their employees, elected officials, and the public about the issues important to open competition in America.

Together we are the leading voice of the merit shop construction industry with the legislative, executive and judicial branches of the federal government and with state and local governments, as well as with the news media.

We engage in robust political activity and advocate for our members through our government affairs department which consists of ABC national, our 69 chapters, ABC Political Action Committee and the Free Enterprise Alliance.

Our generous members made it possible for ABC's political and issue advocacy shop to raise more funds and engage in more states than ever before. FEA raised more than \$3 million, which supported issue advocacy campaigns in 25 states, funded 12 ABC chapter grants and supported five national political organizations who specialize in state-based activity. Additionally, the ABC PAC raised over \$1.4 million and directly supported 220 federal candidates.

Our work is far from over, but together we will continue to fight for our shared principles. The strength of ABC lies within the strength of its members. Thank you for your continuous support and generosity.

Sincerely,

ABC PAC

**2019-2020
CYCLE REPORT**

Letter From PAC Chair

Dear Colleague,

Associated Builders and Contractors Political Action Committee (ABC PAC) was established in 1978. Its sole purpose is to collect personal contributions from eligible executive and administrative personnel of ABC member companies to elect champions of the merit shop agenda to the U.S. House of Representatives, U.S. Senate and the White House.

Over the last two years, ABC members contributed more than \$1,228,000 to help elect defenders of free enterprise and open competition in the construction industry.

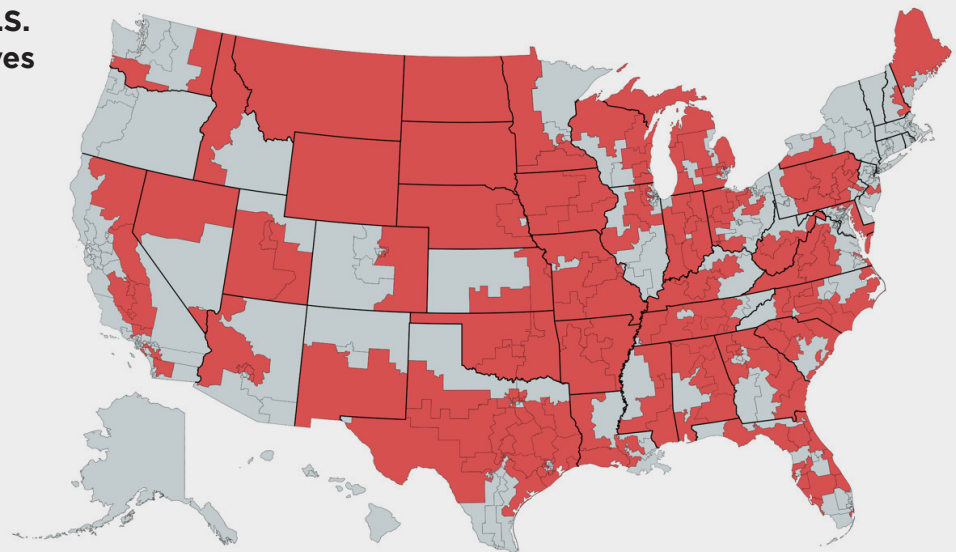

With these funds, ABC PAC contributed to 218 candidates running for the House and Senate, 11 Leadership PACs, four national party committees, and the Federal accounts of 7 state parties. Of the candidates that ABC PAC supported, 84% were successful.

Sincerely,

Sarah Taylor
2019-2020 ABC PAC Chair

**2019-2020 ABC PAC U.S.
House of Representatives
Disbursement Map by
Congressional District**

PAC Governance

The purpose of ABC PAC is to work within the federal election process to further the goals of the association through direct involvement in supporting and opposing candidates for the Office of President, United States Senate and United States House of Representatives. This is accomplished through educating our members on the importance of political activism and offering direct financial support to candidates who support the merit shop construction industry.

ABC PAC supports candidates who want to further core ABC policy issues such as:

Advancing fair and open competition on taxpayer-funded construction projects by limiting government-mandated project labor agreements;

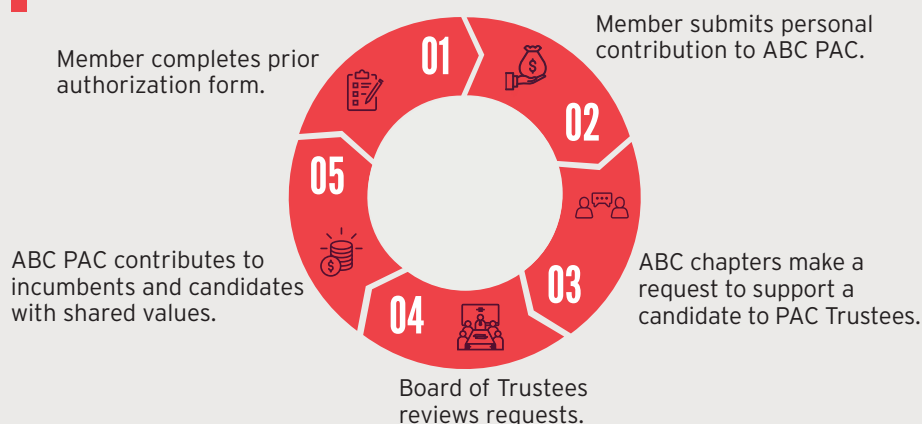

Supporting full repeal and/or reform of the archaic Davis-Bacon Act; and

Protecting the right to a secret ballot in workplace union elections.

ABC PAC is governed by its bylaws and a board of ABC members who are appointed by the ABC National Chairman. Contributions are combined to jointly support candidates. This provides a unified and powerful voice for the merit shop agenda. It is also an opportunity to participate in one of the largest pro-business PACs in the nation.

The PAC Process

The PAC Impact

Engages directly in the political process.

Directly supports candidates with shared principles.

Combines ABC resources to support candidates.

ABC PAC Prior Authorizations

Per Federal Election Commission (FEC) regulations, a corporate member company of ABC must first provide ABC PAC with prior authorization before any individual in its restricted class can contribute or be solicited.

Want to learn more?

ABC Members can complete a prior authorization and learn more through the PAC portal: www.pac.abc.org

Key Issues

Priority Issue 1

Government-Mandated Project Labor Agreements (PLAs)

ABC is strongly opposed to government-mandated project labor agreements (PLAs) on federal and federally-funded construction projects because these special interest requirements violate the practice of full and open competition. PLAs not only drive up the cost of federal construction by reducing competition, but also put merit shop contractors at a big disadvantage (over 87% of the U.S. private construction workforce does not belong to a union) when competing for government construction contracts funded by their own tax dollars. A PLA requires all construction companies to sign a contract with a union in order to work on that job. These special interest agreements also require that contractors obtain all or most of their employees through the union hiring hall, contribute to union benefit plans that their current employees will never receive unless they join a union and abide by outdated and inefficient union work rules and job classifications that increase the cost of construction. Construction contracts subject to government-mandated PLAs are usually awarded only to unionized contractors and their all-union workforces. In short, government-mandated PLAs are bad public policy and have no place in a competitive marketplace. President Obama's Feb. 6, 2009, Executive Order 13502 encourages federal agencies to require PLAs on federal construction projects exceeding \$25 million in total cost and allows state and local government recipients of federal assistance to mandate PLAs. This anti-competitive and costly policy has led to waste and fewer construction projects and construction jobs.

Priority Issue 2

The Davis-Bacon Act

The Davis-Bacon Act, as currently administered by the U.S. Department of Labor (DOL), unnecessarily hinders economic growth and stifles contractor productivity by mandating wage rates on federal construction projects that fail to reflect true, market-based rates. The main culprit for these frequent discrepancies is the flawed, unscientific wage survey process DOL uses to calculate these so-called "prevailing" wages. A recent Government Accountability Office (GAO) report found widespread errors in the Davis-Bacon wage determination process, and noted that it suffers from a serious lack of transparency. Even more troubling is GAO's finding that DOL is simply unwilling to address these problems on its own. DOL's handling of the Davis-Bacon wage determination process is not just bad for construction—it's bad for taxpayers as well. The Congressional Budget Office (CBO) has estimated that the Davis-Bacon Act will raise federal construction costs by \$15.7 billion over the next ten years.

ABC supports the repeal of the Davis-Bacon Act, as well as legislative and regulatory efforts designed to improve federal wage determinations and limit the negative impacts of DOL's current policy.

Priority Issue 3

Protecting the Rights of Employees

Currently, the preferred method for determining whether or not employees want a union to represent them is a private ballot election overseen by the National Labor Relations Board (NLRB). The NLRB provides detailed procedures that ensure a fair election, free of fraud, where employees may cast their vote confidentially without peer pressure or coercion from unions or employers. Yet, union leadership now claims to find private ballot elections an impediment to unionization, preferring "card check" elections, where employees are forced to cast their vote in front of union organizers, their employer and fellow employees. ABC strongly opposes any effort to overturn the established NLRB procedures that guarantee a fair union election through private ballot voting.

PAC Events

Over the 2019-2020 cycle, ABC PAC and its donors gained more exposure than ever. In 2019, ABC members from across the country joined their colleagues for a 'Legislative Day on the Hill' to advocate for the merit shop and distribute ABC Eagle Awards. ABC Eagle Awards are awarded to members of congress who score above a 70% on the ABC legislative scorecard and who support our legislative positions on Davis Bacon and PLAs, the Davis-Bacon Act and protecting the rights of employees.

As 2020 unfolded, ABC PAC quickly shifted to a virtual meet and greet style platform to allow ABC members from around the country to discuss the future of their states and the importance of the merit shop with their congressional candidates. ABC PAC hosted twelve meet and greets last year including five U.S. Senate candidates and seven House candidates: House Republican Whip, Rep. Steve Scalise (R-LA) and Ranking Member of the House Education and Labor Committee, Rep. Virginia Foxx (R-NC). The ABC PAC meet and greet series was an incredible success and included involvement from over 16 chapters, 400 members, and important discussions with members of Congress on ABC specific issues.

ABC Legislative Day 2019 & 2020

ABC believes that in order to create the conditions for innovation and free enterprise, we must promote open competition, efficiency, fairness and equality in government contracting. Mandating project labor agreements limits the pool of qualified bidders able to deliver the best possible product and price.

Government-mandated PLAs unfairly discourage merit shop contractors from competing to win taxpayer-funded construction contracts. This needlessly increases construction costs by between 12% and 18%.

WHITE HOUSE PRIORITY: ABC urges President Trump to rescind Executive Order 13502 and replace it with a new order that will ensure government neutrality in federal and federally assisted contracting and allow all Americans to rebuild their communities.

Congressional priorities

Advocate for the Merit Shop

RELIEF FOR CONSTRUCTION BUSINESS

As the federal government continues to respond to the ongoing COVID-19 health and economic crisis, ABC has advocated for and supported critical policies enacted by the U.S. Congress. ABC also urges Congress to consider necessary modifications to current programs and additional relief to ensure our nation's construction industry remains strong and ready to lead the economic comeback once the crisis is over.

PAYCHECK PROTECTION PROGRAM

ABC appreciates Congress's swift action in passing the CARES Act ([H.R. 748](#)) which provides essential relief for construction small businesses through the Paycheck Protection Program. In an ABC member survey conducted May 20-June 3, 80% of survey respondents indicated their firm had applied for and received loans through the Paycheck Protection Program. As of May 30, 2020, [SBA's](#) [PPP](#) shows the construction industry has received more than 429,000 loans worth more than \$63 billion through the PPP, accounting for approximately 12.5% of the loans provided through the program. The additional guidance released on [October 1](#), 2020, which would clarify that small businesses can deduct expenses paid with a forgiven PPP loan from their taxes.

**2019-2020
CYCLE REPORT**

Welcome Letter

Colleagues,

Free enterprise and support for fair and open competition is the foundation of ABC. To further our mission, ABC created the Free Enterprise Alliance to educate ABC members and their employees, elected officials, and the public about the issues important to the merit shop construction industry.

Since its founding in 2008, the Free Enterprise Alliance has raised \$15,049,179. The millions of dollars raised have been dedicated to issue advocacy campaigns across the country. Thanks to ABC's generous and passionate members, FEA raised a staggering \$3,340,437 this election cycle. This was made possible by 4,215 donors.

During the 2019-2020 election cycle, FEA invested \$3 million through nationwide issue advocacy campaigns, national political organization investments, and chapter funding requests. We messaged on the most pressing issues at hand, from the harmful Protecting the Right to Organize Act, to the beneficial Paycheck Protection Program, to get out the vote efforts.

Together we have accomplished a great deal, but know our work is far from over. We thank you for your support and look forward to advancing our shared values for years to come.

Sincerely,

Brandon Mabile
2019-2020 FEA Chair

FEA Governance

Governance

FEA is governed by a national committee made up of ABC members from across the country, who are dedicated to free enterprise and the education of ABC members, member company employees and the public on the merit shop construction agenda. FEA is a program of the Associated Builders and Contractors and is not an independent organization.

Real Impact in the States

The Free Enterprise Alliance conducts critical advocacy campaigns across the country to educate fellow ABC members and the public on important legislative issues. Thanks to passionate ABC members, FEA raised over \$3,340,000 during the 2019-2020 cycle.

FEA developed comprehensive outreach campaigns to educate ABC members and voters. The highly creative campaigns included outreach through social media, digital display and mobile platforms, video ads across multiple platforms included over-the-top and connected TV (OTT & CTV devices such as Roku, etc.), targeted Peer to Peer text messaging and direct mail.

During the 2019-2020 election cycle, FEA hosted active issue advocacy campaigns in 25 states:

FEA Invested...

Key Campaigns

Combating the ABC-Opposed Protecting the Right to Organize (PRO) Act

- **The Protecting the Right to Organize (PRO) Act**

In February 2020, the Democrat-controlled U.S. House of Representatives passed the Protecting the Right to Organize Act (H.R. 2474/S. 1306) by a vote of 224 to 194. This radical legislation included countless harmful provisions some of which include stripping away workers' free choice in union elections, codifying into law the NLRB's controversial Browning-Ferris Industries joint-employer standard, and eliminating Right-to-Work protections for workers across the country.

- **FEA Reponse**

FEA dedicated nearly half a million dollars educating ABC members and the public alike about the harmful PRO Act. FEA utilized video, digital, mail and texting tools to reach out to ABC members and individuals in key states. Additionally, FEA create a comprehensive website where individuals could learn more about the job-threatening legislation, contact their representatives, share information through social media platforms and more.

ABC Votes 2020

- **ABC Votes**

ABC Votes 2020 is the one-stop-shop for all voter questions, information and priority issues that surrounded the 2020 election cycle: abcvotes.com.

- **ABCVotes.com**

The website offers personalized election guides for all 50 states and the District of Columbia. These guides provide information about state general elections including candidates, voting information and important election websites. Additionally, ABC Votes 2020 highlights important issues pertaining to the construction industry and provides election resources for ABC chapters and members.

ABC Votes is committed to providing up-to-date information and resources throughout the 2020 elections. Individuals are encouraged to check back regularly to learn more about the 2020 election cycle.

State Engagement

- **FEA State Engagement**

FEA plays a key role in supporting state chapters' issue advocacy campaigns and national state political organizations. In 2019-2020, FEA supported 22 state-based grants and organizations totaling over \$950,000.

Highlights Include...

Texas

ABC of Texas received funding that supported the policy research and advocacy efforts of the Texas House Republican Caucus. The advocacy efforts focused on priority policy issues including liability protections, consistent employment regulations, workforce development and more.

Western Washington

ABC of Western Washington received funding to create and produce an issue advocacy campaign titled 'Free Markets Create'. Through the campaign the chapter developed and promoted content to help ABC of Western Washington increase membership and drive overall brand awareness of the association to the construction industry, legislators and other organizations. The campaign will continue throughout 2021, and has already reached countless individuals through town halls and virtual events, social media promotions, targeted video campaigns and more.

State-Based Political Committees

FEA supports the operating funds of influential state-focused national political organizations including Republican Governors Association (RGA), Republican Lieutenant Governors Association (RLGA), Republican Legislative Campaign Committee (RLCC), GOPAC and the National Conference of State Legislatures (NCSL).

Press Coverage

ABC's Free Enterprise Alliance Announces Million-dollar Issue Advocacy Ad Buy

WASHINGTON, Oct. 21 – Associated Builders and Contractors' Free Enterprise Alliance, which educates elected officials and the public about the importance of fair and open competition, today announced it has made a million dollar issue advocacy ad buy in 25 states nationwide. The advocacy campaign, which includes digital ads and mailers, will educate constituents on the dangers of the Protecting the Right to Organize (PRO) Act, highlight benefits of the Paycheck Protection Program and encourage voting in the upcoming election.

"As we work together towards a strong national recovery, it's critical that economic issues remain top of mind at this pivotal time," said Melanie Pfeifferberger, director of political affairs for ABC. "Our goal is to send Americans a strong reminder that free enterprise is what powers a thriving economy."

The ads outline the negative implications of the ABC-opposed PRO Act, legislation that was passed in the U.S. House of Representatives on Feb. 6 and remains a priority for Democrats. If signed into law, the PRO Act will overturn freedom of choice in all existing right-to-work states, take away a worker's right to a secret union ballot and eliminate the ability for workers to pursue independent contracting opportunities.

FEA will encourage constituents to tell members of Congress to oppose the PRO Act, running digital ads in Alabama, Arizona, California, Colorado, Florida, Illinois, Kansas, Maine, Michigan, Minnesota, Nevada, New Hampshire, New Jersey, New Mexico, New York, Ohio, Pennsylvania, Texas, Virginia and Wisconsin.

"Hardworking Americans shouldn't have to pay union dues as a condition of employment," said Pfeifferberger. "Eliminating right-to-work in states across the country would devastate construction workers and discourage new workers from joining the industry. The goal should be to encourage workforce development, not hamper it with overly burdensome regulations."

The campaign additionally aims to educate ABC members and the public on important policies, such as the job-saving Paycheck Protection Program, that will speed America's return to widespread prosperity. The PPP program is a vital lifeline for small businesses, including the more than 177,000 in the U.S. construction industry, ensuring access to the liquidity and resources needed to remain in business and provide pay and benefits for hardworking employees.

FEA will urge constituents to contact U.S. representatives and senators who supported PPP and encourage them to continue supporting free enterprise policies.

Lastly, FEA will use digital and mail ads to encourage Americans in Minnesota, Florida and Pennsylvania to get out and vote in this upcoming election, prioritizing issues of free enterprise.

The campaign will run through Election Day, Nov. 3.

Founded by Associated Builders and Contractors, the Free Enterprise Alliance's mission is to educate ABC members and their employees, elected officials and the public about the issues important to open competition in America. At the heart of the Free Enterprise Alliance's mission is the belief that while we need government for common sense regulations, the scales have tipped too far in favor of government intrusion. **Learn more by visiting FreeEnterpriseAlliance.org.**
