2 | ABC Members Build America
What Is ABC?

Associated Builders and Contractors is a national construction industry trade association established in 1950 that represents more than 21,000 members.

Founded on the merit shop philosophy, ABC and its 68 chapters help members develop people, win work and deliver that work safely, ethically and profitably for the betterment of the communities in which ABC and its members work.

abc.org
Who Are ABC Members?

Construction and industry-related firms representing all specialties within the U.S. construction industry, primarily those focused on the industrial and commercial sectors.

Champions of fair and open competition that are committed to delivering high-quality, safe construction projects that are awarded to the most qualified bidder based on merit, not mandates or political favoritism.

ABC members build America. ABC members have been setting the standard for safety, performance and integrity in the construction industry since 1950, and every day we continue to raise the bar. ABC welcomes other like-minded contractors committed to excellence and delivering high-value, high-quality projects on time and on budget to join us.

Of more than 21,000 members, 62% are contractors. 11% are large contractors. 39% are small contractors. 50% are mid-sized contractors.
What Do ABC Members Build?
Annually, ABC members invest billions to educate millions of course attendees in apprenticeship, craft, safety and construction management education programs.
In 2021, ABC member contractors invested $1.6 billion in workforce development to educate more than 1.3 million employees. ABC chapters have 300+ entry point programs into the industry nationally.

abc.org/wfsurvey
Educating the Skilled Workers of Tomorrow

ABC’s 68 chapters and their affiliates provide more than 800 apprenticeship, craft, safety and construction management education programs—including 300 government-registered apprenticeship programs—across the country.

Outreach initiatives include scholarship programs, relationships with universities and partnerships with education and training organizations.

[abc.org/chapterlocator](http://abc.org/chapterlocator)
ABC and its 68 chapters are doing their part to upskill craft and management professionals using innovative and flexible learning models like just-in-time task training, competency-based progression, work-based learning and government-registered apprenticeships to build a safe, skilled and productive workforce.

Policymakers must commit to supporting an inclusive, all-of-the-above strategy for workforce development where workers choose their career path and employers have the freedom to choose the best way to provide value and build America.

[abc.org/workforce]
Construction Spending and Employment Forecast
(High, Base and Low Scenarios) abc.org/wfshortage

$1 billion in additional construction spending creates 3,900 jobs. In 2022, the construction industry needs to attract 650,000 new workers.
ABC Workforce Development Programs

The ABC National Student Chapter Network connects local ABC chapters to colleges and universities with construction-related degree programs with the ultimate goal of building the construction management pipeline and mentoring future leaders of the construction industry.

abc.org/studentchapter

The ABC Project Management Institute is a premier education and professional development opportunity for future project management leaders. This course is designed specifically to meet the needs of today’s contractors and is held at ABC chapters.

abc.org/pmi
ABC Recognition and Awards Programs

The Construction Management Competition promotes careers in construction management, featuring teams of college students testing their skills in project management, estimating, safety, quality control and presentation skills.

abc.org/cmc

The National Craft Championships celebrate lifelong learning in the merit shop construction industry, with craft trainees from chapter and member training programs across the country competing for national recognition in about a dozen crafts during the annual ABC convention.

abc.org/ncc
The ABC Construction Workforce Awards feature the Craft Instructor of the Year, Craft Professional of the Year and Young Professional of the Year. These individuals play crucial roles in shaping the future of the construction industry by highlighting construction as a meaningful lifelong career, emphasizing safe work practices and expanding education opportunities. The winner of each award is announced at the annual ABC convention.

abc.org/cwa
ABC HELPS ITS MEMBERS WIN WORK

ABC creates opportunities for its members to compete for work on a fair and level playing field, and then helps them win work based on merit.
ABC defends open competition in construction contracting at the national, state and local levels, opposing government-mandated project labor agreements and prevailing wage laws while supporting right-to-work policies.

TheTruthAboutPLAs.com

ABC Members Win Work Through Fair and Open Competition

More than half the value of large federal contracts was awarded to ABC members from 2009 to 2021. In fiscal year 2021 alone, ABC members won $5.95 billion in large federal contracts out of a total of $11.37 billion, or 52%.

Federal Contracts >$25 Million
Fiscal years 2009-2021

ABC Members Build America | 15
Government-mandated PLAs steer work to unionized contractors and their unionized workforce, which represents just 12.6% of the U.S. private construction workforce, according to 2022 U.S. Bureau of Labor Statistics data. Therefore, PLA requirements deny opportunity to nearly nine out of 10 U.S. private construction workers.

ABC Opposes Government-Mandated PLAs

**Anti-competitive and costly** government-mandated PLAs end open, fair and competitive bidding on contracts to build taxpayer-funded construction projects.

**Government-mandated PLAs** discourage merit shop contractors from bidding on taxpayer-funded construction contracts and drive up costs by 12% to 20%.

**An ABC-led coalition campaign** created the website [BuildAmericaLocal.com](http://BuildAmericaLocal.com) to tout the value of fair and open competition.
ABC Is a Leader in Advocacy

ABC defends the economically sound principles upon which America was built. ABC members can play an active role in the political process by engaging with the ABC Political Action Committee and the Free Enterprise Alliance, and joining the grassroots efforts at ABC Legislative Week in Washington, D.C.

In 2021, ABC’s Free Enterprise Alliance raised $2 million to promote merit shop priorities and spent more than $600,000 on issue advocacy campaigns across the country. ABC PAC raised more than $800,000 in 2021 with the help of generous ABC members.

freeenterprisealliance.org
abc.org/pac
ABC Advances Fair and Open Competition on Taxpayer-Funded Construction Projects

During fiscal years 2009-2021, $127.48 billion in large-scale federal contracts was awarded without government-mandated PLAs.

99% of large federal contracts have been awarded through fair and open competition.
ABC Supports Full Repeal of the Davis-Bacon Act

In the absence of full repeal of the Davis-Bacon Act, ABC is fighting for common-sense reforms that will deliver more value to taxpayers. The U.S. Department of Labor’s March 2022 proposal updating Davis-Bacon Act regulations is a missed opportunity to fix its flawed wage determination process, cut red tape for small businesses and create regulatory clarity for contractors and government stakeholders building federal and federally assisted construction projects.

abc.org/davisbacon
ABC Recognizes Top Contractors With the Accredited Quality Contractor Credential

Exclusively for ABC members, the Accredited Quality Contractor program recognizes construction firms that annually document their commitment in five key areas of corporate responsibility: quality, safety, talent management—including inclusion, diversity and equity—craft and management education and community relations. The program serves as a holistic cultural assessment for the company, as well as a dependable business development tool. Be the best. Build with the best.

abc.org/aqc
Find and Do Business With Other ABC Members

FindContractors.com helps members find and do business with other members. Members can search for an ABC contractor, supplier or other construction professional by name, chapter, location, sales volume or type of construction. Plus, find members that have earned an Excellence in Construction® award, participate in the STEP Safety Management System and Accredited Quality Contractor program, have special designations and have signed the Drug- and Alcohol-Free Workplace Pledge.
The National Excellence in Construction Awards is the premier awards program for merit shop construction, recognizing the industry’s most innovative and high-quality construction projects across the nation. Winning contractor firms are honored at an annual black-tie awards gala with their entire project team—owners, architects and engineers—to celebrate this prestigious achievement.

abc.org/eic
The National Safety Excellence Awards recognize companies that exhibit a continued commitment to jobsite safety and whose safety performance and programs are judged to be exemplary based on data submitted via STEP applications, essay questions and video interviews with company leadership about their corporate safety culture.

abc.org/safety

The National Inclusion, Diversity and Equity Excellence Awards recognize ABC members that display exemplary IDE leadership in their company, workforce, supply chain and community through best-in-class recruitment policies, retention practices, and training and mentoring programs.

abc.org/diversity

ABC’s Contractor of the Year recognizes contractor companies for corporate integrity and commitment to safety, professional development and expert craftsmanship. The winning company is honored at the EIC gala during the ABC convention.

constructionexec.com/coty
ABC Champions Inclusion, Diversity and Equity

The construction industry is changing in profound ways, but one constant remains: the need to bridge gaps in advancing inclusion, diversity and equity. At Associated Builders and Contractors, we believe that career opportunities in this nation should be created and made available to all people.

We believe in creating—and championing—conditions where individuals and organizations are limited only by their own potential and desire. This is the driving force behind the merit shop philosophy and ABC’s inclusion, diversity and equity initiatives.

Through Diversity Resource Groups, the Inclusion, Diversity and Equity Initiative Grant and the National Inclusion, Diversity and Equity Excellence Awards, ABC supports and recognizes success in achieving a diverse construction workforce.

ABC’s Inclusion, Diversity and Equity Summit dives into meaningful, thought-provoking discussions and solutions-based recommendations for building diverse workplaces and supplier networks.

abc.org/diversity
ABC HELPS ITS MEMBERS ACHIEVE WORLD-CLASS SAFETY

ABC sets world-class standards for health, safety, wellness and environment in the construction industry and helps its members achieve them.
Founded in 1989 as a safety benchmarking and improvement tool, STEP has evolved into a world-class safety management system that dramatically improves safety performance among participants regardless of company size or type of work. Participating ABC member firms measure their safety processes and policies on key components through a detailed questionnaire with the goal of implementing or enhancing safety programs that reduce jobsite incidents.

abc.org/step

“STEP helped us perform an internal analysis of our safety performance and provided a meaningful, measurable and actionable gap analysis of our safety program and ongoing safety efforts. Safety excellence is a journey. To start your journey, you must first find yourself on the map and chart your course from there. Let STEP be your navigator. It’s never too late to get going.”

—Frank A. Trujillo, Vice President
Miller & Long Co. Inc.
Bethesda, Maryland
STEP Platinum and ABC Accredited Quality Contractor
STEP Diamond Members Are 645% Safer Than the Industry Average

The best-performing participants in ABC’s STEP Safety Management System lowered their total recordable incident rate by 84% compared to the U.S. Bureau of Labor Statistics construction industry average, according to data gathered from ABC members recording more than 1 billion hours of work in construction, heavy construction, civil engineering and specialty trades. ABC’s annual Safety Performance Report is featured on OSHA’s Using Leading Indicators to Improve Safety and Health Outcomes resource page.

Business Management Expertise

ABC helps members stay on top of the technologies that can give them an edge in improving productivity and profitability. From digital collaboration software and BIM to high-tech accounting systems and contracts, ABC webinars, education sessions and conferences give members access to top industry experts who can help improve the bottom line.
Investing in Construction Innovation Through the ABC Tech Alliance

ABC’s Tech Alliance was built to help ABC work smarter through improved utilization of technology. The alliance is a hand-selected group of more than a dozen construction technology companies that add inherent value for ABC members and position ABC as a leading association for construction technology needs.

abc.org/techalliance
Executing on ABC’s commitment to world-class performance on jobsites requires ABC member contractors to continuously innovate. To be a top performer in safety and win and deliver more work, contractors need to keep their fingers on the pulse of innovation. ABC’s annual Tech Report provides leaders with a roadmap to understand how technology and innovation can help their businesses through research on technologies currently in use and case studies on innovative solutions ABC members have implemented successfully.

Reduce risk and improve safety. Insurance to protect your employees, your projects and your bottom line.

Work safer at any height. Equipment for aerial access including new and certified pre-owned units.

Nothing but heavy duty. Delivering innovative solutions that offer increased productivity, safety and unmatched durability.

The products you can rely on. Providing the electrical wire, cable and tools you can trust for over 70 years.

The prevailing wage experts. Helping contractors compete for and win government jobs with compliant fringe benefits.

Grow anywhere, any time. Your source for skilled, productive craft professionals whenever you need them.

Equipment, at the click of a button. Great customer service plus equipment, when and where you need it.
ABC HELPS ITS MEMBERS ENHANCE COMMUNITIES

From award-winning projects to community service, ABC members build America.
ABC Members Contribute to the Communities Where They Live and Work

From fundraising and expanding job training programs to contributing to relief efforts after natural disasters and volunteering to perform renovations on the homes of military veterans in need, ABC members step up to support local communities and charitable causes across the country.

constructionexec.com/community

ABC member Ruppert Landscape, Laytonsville, Maryland, participated in the September art installation, “In America: Remember,” commemorating each American who had died from the COVID-19 pandemic to date. Ruppert donated more than 2,000 work hours for 300 employees to hand-install more than 660,000 white flags spaced evenly over 20 acres of the National Mall in Washington, D.C.
Up Your Game: Join an ABC Peer Group

ABC’s peer groups give like-minded business owners an environment conducive to sharing ideas and discussing opportunities and challenges—all with the goal of improving their businesses. Peer groups consist of six to 10 noncompeting ABC member companies within a trade or interest area and with similar annual volumes. Peer groups are available for contractors in drywall, electrical, general, mechanical/HVAC, painting, plumbing and more.

abc.org/peergroups

“Peer groups have been a huge benefit for me and my company. Getting a chance to share ideas, compare systems and learn from others confidentially has been transforming for Willmar Electric. How we use prefabrication, recruit, market and much more has been shaped by conversations I have had with peer group members. In fact, I cannot think of a single area within our firm my peer group hasn’t played a role in improving.”

—David Chapin, President, Willmar Electric, Lincoln, Nebraska 2016 ABC National Chair of the Board of Directors
