ABC TECH MARKETPLACE GUIDE

Stay Ahead With Member-Exclusive Discounts on Tech Solutions From ABC-Vetted Companies

abc.org/techmarketplace
Choosing technology can be difficult, but it doesn’t have to be.

The construction industry is at an inflection point where most of the top-performing contractors of all sizes are investing in technology in multiple areas of their business. With so many technologies to choose from, ABC and its Construction Technology and Innovation Committee have led the effort to create a Tech Marketplace that showcases tech companies that make members safer, more profitable and positioned to win more work with their solutions.

ABC Tech Marketplace companies are required to offer solutions that solve a major problem, provide an exclusive discount to members, be a member of at least one ABC chapter and have a proven track record with ABC members, providing a significant return on your investment.

Take advantage of ABC-member exclusive discounts!
Integrate construction technology and innovation into all aspects of your strategic initiatives.

Gain a competitive advantage with cutting-edge, cost-saving solutions.

CUSTOMER RELATION MANAGEMENT

Followup CRM is a construction CRM software designed to manage leads and bids, get contractors organized and help you win more jobs.

Before Followup CRM, everything was in spreadsheets, projects felt scattered, leads and bids fell through the cracks, it was tough to see where projects stand, people were stressed and customer information was all over the place.

After Followup CRM, everything is organized in one place, you will never forget to follow up again, you’re on top of things, sales progress is clear and you win more projects.

EXCLUSIVE BENEFIT FOR ABC MEMBERS

• $500 off onboarding

abc.org/followupcrm

CYBERSECURITY

Egnyte provides a unified location for documents and data throughout each stage of a project’s lifecycle, making it easier than ever before to access information securely from any device. With collaboration at your fingertips without interruption—even when you are at the jobsite or away—you can share files anywhere at any time.

Egnyte is the secure multicloud platform for content and governance that enables organizations to better protect and collaborate on your most valuable content. Improve data security, maintain compliance, prevent and detect ransomware threats, and boost employee productivity on any app, any cloud, anywhere.

EXCLUSIVE BENEFIT FOR ABC MEMBERS

• ABC members receive 15% off Egnyte services

abc.org/egnyte
KOJO

Kojo is an all-in-one system for contractors to handle all your materials and inventory needs and make it easy for your field team, purchasing, accounting and vendors to work together to get materials to the site on time and for the best price.

Kojo offers an all-in-one procurement and inventory management system, including tools to:

- Process material orders from takeoff to closeout
- Compare pricing and availability from any vendor
- Place field requests by building a shopping cart on your phone
- Track inventory and get it out to the field
- Reconcile invoices against the purchase order and proof of delivery
- Integrate with your accounting system
- Automate reporting

EXCLUSIVE BENEFIT FOR ABC MEMBERS

- 10% off subscription software, on average a $1,750 value

abc.org/kojo

TENNA®

Tenna lets you know more, with reliable tracking and a unified platform for mixed fleets built on over 100 years of combined construction experience. Tenna lets you control more with visibility from the machine level to the project, all the way up through your whole company. Make more money with better own, move and buy/rent decisions, higher utilization and more predictable days.

EXCLUSIVE BENEFIT FOR ABC MEMBERS

- 15% discount on hardware

abc.org/tenna
From project evaluation to completion, contractors use STACK’s cloud-based software to help run your business and maximize your profits. STACK’s preconstruction solutions enable fast, accurate takeoff and estimating and provide a centralized hub where plans, specs and other documents can be stored, evaluated, measured and shared. STACK’s construction solutions power real-time field and project collaboration by allowing teams to quickly and easily review, annotate, compare and share plans anywhere, from any device.

EXCLUSIVE BENEFIT FOR ABC MEMBERS

- 20% discount on any STACK solution for new clients

abc.org/stack

**HR AND WORKFORCE MANAGEMENT**

Arcoro delivers the best experience in the field and the office for over 10,000 construction companies and specialty contractors. Arcoro helps contractors do HR smarter—and faster—by allowing you to:

- Accurately track time in the field and office for all employees
- Easily document time, recruiting and retention processes to support compliance
- Centralize training and certifications
- Develop employee career and succession plans
- Store all employee data in one system of record

Integrate seamlessly with the construction tech solutions you are already using, including Sage, Acumatica, Viewpoint, Foundations, Procore and CMiC. That means you get the most from your data, and your team can focus on completing projects instead of paperwork and data entry.

EXCLUSIVE BENEFIT FOR ABC MEMBERS

- 10% off on Arcoro and ExakTime Solutions.

abc.org/arcoro
Field Control Analytics offers solutions to contractors of all sizes to manage your workforce, ensure safe jobsites, understand project labor hours on and off site and comply with government worker demographics tracking. We help clients understand the true cost of labor on the project, onboard, track and manage your workforce and minimize risk.

FCA provides jobsite access control and credentials for workers to get onto project sites. FCA manages and facilitates workforce data; tracks certifications, trainings and other critical demographics; and provides workforce participation data points specifically addressing compliance. Additional offerings include drug testing and background screenings.

**EXCLUSIVE BENEFIT FOR ABC MEMBERS**

- 15% discount on services

PRECONSTRUCTION AND BIDDING

At BeckTech, innovation is our mandate. For over 25 years, BeckTech has served the construction industry by developing technology that enables efficient and effective decision-making, so you can focus on more valuable work. We are leading the way to smarter, faster preconstruction processes and decisions.

DESTINI Estimator construction estimating software is a preconstruction platform like no other, solving complex issues and giving clarity to the preconstruction data lifecycle. The integrated, single-source solution features built-in 2D and 3D takeoffs and automatically gathers and stores your cost history. This flexible software eliminates the need for multiple tools; helps create cohesive, better estimates; and speeds up the time it takes to get estimates out the door.

EXCLUSIVE BENEFIT FOR ABC MEMBERS

- General contractors will receive free base implementation

abc.org/becktech

ConstructConnect, a Roper company, provides trusted data and specification solutions to help the construction industry start every project on a solid foundation. From its start as a publication house, ConstructConnect has grown into a multichannel solution for the entire commercial construction industry. ConstructConnect’s software helps you:

- Streamline the bidding and management process, from project planning to closing out
- Simplify the bidding process by allowing you to create and send invitations to bid, to prequalify subcontractors and to ensure bid coverage for projects
- Streamline your takeoff process and reduce errors and rework by completing measurements and calculations as you mark up your drawings
- Measure footage, pitch and angles in seconds with a simple point and click, and use drag-and-drop parts and assemblies to quickly calculate material and labor costs
- Optimize your bids and improve estimating performance

EXCLUSIVE BENEFIT FOR ABC MEMBERS

- 10% discount on select solutions

abc.org/constructconnect
Autodesk Construction Cloud connects workflows, teams and data at every stage of construction to reduce risk, maximize efficiency and increase profits. Our products support key construction workflows, from design collaboration and model coordination, bid management and quantification, as well as project, field and facilities management—all with powerful, simple software.

EXCLUSIVE BENEFIT FOR ABC MEMBERS

- 15% discount for new customers

[abc.org/autodesk]

ABC’s Tech Marketplace not only provides guidance with the industry’s most current technology, but the solutions are vetted by construction industry experts. The savings I receive as a company owner for using technology in the Tech Marketplace far exceeds the investment I made in my ABC membership.

—Buddy Henley, president
Henley Construction Co. Inc.

Knowify is a business management software designed to help specialty trade contractors with bidding, job costing, invoicing and project management, giving you a detailed view on project-level financial health. Knowify’s business management software empowers contractors to build your business with confidence.

Knowify crunches the numbers and shows you the impact every job has on your business, then gives you the project and client management tools you need to execute every job more effectively.

EXCLUSIVE BENEFIT FOR ABC MEMBERS

- 25% discount on an annual plan

[abc.org/knowify]
Procore is a leading provider of construction management software. Over 1 million projects and more than $1 trillion in construction volume have run on Procore’s platform. The Procore platform connects every project stakeholder to solutions they’ve built specifically for the construction industry—the owner, general contractor and specialty contractor.

Procore’s App Marketplace has a multitude of partner solutions that integrate seamlessly with the platform, giving construction professionals the freedom to connect with what works best for you.

**EXCLUSIVE BENEFIT FOR ABC MEMBERS**

- 15% discount on any new product or service

SubHQ is a project management software solution built specifically around the unique needs and workflows of small to midsize specialty subcontractors. Because most of the data subcontractors manage originates in the field, SubHQ is designed to be field-friendly first by collecting data intuitively through streamlined and consolidated workflows.

SubHQ empowers subcontractors to manage projects from bidding to completion through integrated processes like change order management, time tracking, safety and quality compliance, equipment and tool tracking, equipment maintenance and task and checklist management. The advantages of SubHQ are access to real-time data, streamlined processes and increased accuracy and efficiency, which all translates to reduced risks, consistency and cost savings across your entire organization.

VIRTUAL REALITY

Interplay Learning is the leading global provider of online and VR training for the essential skilled trades. We develop and deliver scalable, highly effective digital learning simulations for the HVAC, plumbing, electrical, solar and facilities maintenance workforce. Using the digital experiential learning platform, Interplay allows you to practice hands-on learning and train to be job-ready in weeks, not years.

Interplay Learning serves the ABC community with its award-winning training solution, SkillMill™. SkillMill is an immersive, simulation-based training platform for the skilled trades that provides employees with a more valuable and high-impact experience when compared to traditional classroom instruction. Accessible on any device (phone, tablet, desktop or VR), SkillMill houses approximately 250 hours of video- and simulation-based content that helps tradespeople gain critical workplace skills. This content has been vetted by the U.S. Department of Labor and can count toward licensing or CEU credit in some states. Additionally, SkillMill equips administrators, instructors and business owners with powerful insights into where your team is lacking skills and provides tools to bridge those gaps.
