

ASSOCIATED BUILDERS AND CONTRACTORS

ABC Cares

ABC Cares is a national initiative designed to promote and encourage community service projects in the construction industry. Community service has always been a cornerstone of ABC, and each year, chapters and member companies strengthen their communities by serving the needs of others.

Chapters and members are encouraged to submit photos and descriptions of their community service projects to be featured through a variety of venues, including the ABC National website, *Construction Executive* magazine and the ABC Cares video that is shown at the Excellence in Construction Awards celebration.

For more information about ABC Cares or to submit materials, see the reverse side of this page for the submission form.
