Project Manager
Ronnie Balentine, S&B Engineers & Constructors
For questions related specifically to the pipefitting competition, contact Ronnie Balentine at rdbalentine@sbec.com. For all event questions, contact Jarrell Jackson, National Craft Championships director, at (202) 595-1789 or jackson@abc.org.

Specific Competition Eligibility
The pipefitting competition has no competition-specific eligibility requirements. Please refer to overall eligibility requirements listed on page 3 of the guidebook.

Online Exam
The online exam must be completed before competitors arrive on site, at a local NCCER Accredited Training Sponsor or Assessment Center. Accommodations will be made for extreme circumstances with prior approval of the NCC director. All competitors must sit for the online exam or face disqualification from the NCC. The online exam continues to make up 25% of one’s overall competition score. It is the responsibility of the sponsor organization to schedule test sessions directly with NCCER. Test registration and guidelines will be available in January 2023.

Practical Performance Test Description
Competitors will perform three tasks utilizing various skills within the NCCER pipefitting curriculum. The tasks will be in the areas of threaded pipe fabrication, welded pipe fabrication and flanged pipe makeup.

Pipefitting Task: Threaded Pipe Fabrication
Each competitor will be given an isometric drawing from which to work and be required to calculate material take offs and cut lengths of pipe. The pipe will then be cut, threaded and fabricated to the drawing. They will utilize pipe threading skills, math calculating skills and threaded pipe makeup skills to complete this project. Each project will have a time limit in which it must be completed.

Pipefitting Task: Welded Pipe Fabrication
Each competitor will be given an isometric drawing from which to work and be required to use their math skills to calculate material take-offs and cut lengths of pipe. There will be various types of fittings involved, such as welded fittings, socket weld fittings and slip-on fittings. The pipe will then be cut, cleaned and fabricated to the drawing specifications. Various hand tools and power tools will be used for this project. The project will be tacked together utilizing a provided tack welder. Each project will have a time limit in which it must be completed.

Pipefitting Task: Flanged Makeup
Each competitor will bolt their fabricated pipe spools into a fixture per the fabrication iso
provided so that flange alignment and bolt-up skills can be assessed. Each project will have a time limit in which it must be completed.

Knowledge and Skills Required
The knowledge and skills for this competition are based on all levels of the NCCER pipefitting curriculum, with particular emphasis on the following modules:

- Pipefitting Hand Tools
- Pipefitting Power Tools
- Drawings and Detail Sheets
- Identifying and Installing Valves
- Pipefitting Trade Math
- Threaded Pipe Fabrication
- Socketweld Pipe Fabrication
- Butt-Weld Pipe Fabrication
- Standards and Specifications
- Advanced Trade Math
- Advanced Blueprint Reading
- Advanced Pipe Fabrication

Tools Competitors Are Required to Bring
Each competitor should bring only the items listed below to the competition. Items will be examined prior to the practical performance test and additional tools will be stored until the competition has concluded. If a tool necessary to complete the practical performance test is not listed, the National Craft Championships Committee will provide it:

- Leather work gloves
- Non-programmable construction calculator. **No Texas Instruments calculators will be allowed.**
- Long-sleeve work shirt (for grinding and tacking)

Tools that will be supplied by the National Craft Championship Committee:

**Welded Pipe Fabrication Project**
- 24-inch level
- 24-inch framing square
- Speed square
- Torpedo level
- 25-foot tape measure
- Wrap around
- Soap stone
- 4-inch grinder w/ ¼-inch disc
- Bandsaw
- 1 1/16 Wrenches
- 2-hole pins
- Lock Jaw Pliers
- Face shield
- Ball Peen Hammer
- Tripod stand with chain vise
- Jack stand
- Welding leads/ground
- Tack welders to be shared by all competitors
- Air Movers

**Threaded Pipe Fabrication**
- 14-inch pipe wrench
- 14-inch chain wrench
- Tripod with yoke vise
- Jack stand
- Threading machine
- 7/8 Wrenches
- 2-hole pins
- Lock Jaw Pliers
Sample Score Sheet
The following sample score sheet is provided to give competitors an example of the criteria that may be included in the practical performance test. However, this score sheet is only a sample and not intended to act as a study guide in preparation or to imply specific criteria that will be judged during the actual practical performance test.
