

A background image showing construction workers in safety gear, including hard hats and high-visibility vests. The image is split into two color schemes: the left side is a warm orange-red, and the right side is a cool grey-blue. The workers are in a construction setting with scaffolding and structural elements visible.

How Tech Is Controlling Your Quality and Safety Programs

How Tech Is Controlling Your Quality + Safety Programs

Agenda:

- + On the jobsite
- + Through education
- + Data driven knowledge
- + Through culture

How Tech Has Influenced the Jobsite

- + The velocity of information
- + Stepping into a digital age
- + Simplifying / streamlining processes
- + More with less
- + The importance of DATA
- + A culture of safety

Technology's Influence on Education

How is it being consumed?

Universities and Continued Education

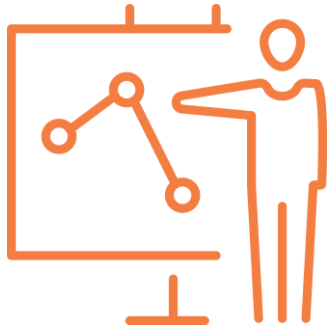

- + Software contribution to Universities
- + University / industry collaboration
- + Another path to learning

Online Content

- + High quality online content
- + Learning assessments to verify knowledge
- + Recognition of accomplishments

Knowledge Through Data

- + Timely data collection
- + Proactive vs. Reactive
- + Knowledge of job and team performance
